Object Information

*please add addition rows/sheets if needed

OBJECT NAME	OBJECT NUMBER

The prefix TC stands for Teaching Collection. This is the core collection that lives in the main storage area. The prefix DR stands for Discovery Room. They live in the Discovery Room and need to be requested separately from TC objects. The prefix TV stands for Teaching Volunteer. TV objects belong with the interactive teaching carts and are mainly used by the Teaching Volunteers during the school year. Not all objects that are on the TV carts have TV numbers, some have TC numbers. If an object you request is on a cart and is unavailable, staff will either replace that object with a similar object from the Teaching Collection or will let you know if you cannot have that object at all.

Please email all requests to educationcollection@amnh.org
